

DaWanda is the leading European market place for handcrafted goods.

A trailblazer for high quality craft businesses and shops in Europe, DaWanda is the voice to boost awareness of unique crafts and DIY work.

DaWanda was founded in 2006. Today, more than 1.6 million registered users can choose from a selection of over 2 million products, listed by 130.000 individual shops.

Our main categories are fashion, accessories, bags, jewellery, baby & children, home & living and supplies.

To optimize the exploitation of our data, we are currently seeking a highly analytical and pro-active

BUSINESS INTELLIGENCE MANAGER (f/m)

Your Responsibilities:

- Design, modelling and implementation of sophisticated data warehouse and business intelligence solutions
- Development, maintenance and optimization of ETL processes
- Development, implementation and documentation of standardized transformation rules
- Modelling and implementation of cubes and dimensions
- Set up and present complex reports based on cubes and relational tables
- Automization and monitoring of the timely presentation of data, cubes and reports
- Set up ad hoc analyses

Our Requirements:

- A minimum of 3-5 years experience in a similar role
- Knowledge of and work experience with MySQL, ETL processes and data warehouse architectures
- Good understanding of business related dependencies and processes
- Highly motivated to build structures from scratch
- Experience in the online industry, ideally e-commerce, is a plus
- Very good command of English
- Structured and cooperative personality

Our Offer:

- A dynamic, creative, and cooperative start up environment
- The possibility to work with state of the art technologies and develop relevant skills
- Room for personal and professional development
